THE PRESIDENT AND THE PARTY.

There are a number of Republicans in this country, as there are doubtless all over the country, who are fond of ascribing the seeming policy of their party to the action of President Hayes. When any event occurs which in their judgment militates against the glory of strength of their organization and which they suppose with their superior wisdom they could have averted, the President is charged with being false to the trust placed in his hands, and the weaknesses buried at his side to what extent the feeling against his policy has grown. It is a pity that the President is being made the only cause for the party's decline and that his policy is carried out and endorsed by the leading men of the nation will strengthen the bond that unites the States in a common republic, we give place to an editorial from *Harper's Weekly* which, while it states facts that it is presumed the reading community are perfectly familiar with, the deductions which must necessarily follow seem to be overlooked by our state politicians. The article is as follows:

The President is charged with destroying the Republican party, and those who are angry and distressed by the decline of Republican power, are not only justified in their anger, but are also justified in their demand for a change. The President is charged with the destruction of the party, and those who are angry and distressed by the decline of Republican power, are not only justified in their anger, but are also justified in their demand for a change. The President is charged with the destruction of the party, and those who are angry and distressed by the decline of Republican power, are not only justified in their anger, but are also justified in their demand for a change.

There is another consideration which is forgotten by those who are busy accusing the President of destroying the party. THE CAPTURE OF PLEVNA.

Surrender of Osman Pasha—Forty Thousand Turks Taken with the Town.

London, Monday, Dec. 10.—Reuters' Telegram Company has received the following dispatch, dated today, at Bucharest:

"After a severe engagement, yesterday, before Plevna, Osman Pasha, who was wounded, surrendered unconditionally."

"The Turks in Plevna were dying of hunger and cold."

"There is great joy here. Bucharest is celebrating the victory."

The Russian Agency makes the following announcement:

"Osman Pasha attempted to break through in the direction of Vidin. He was attacked in front and rear, and was compelled to lay down his arms after a glorious struggle, in which he was seriously wounded. All with one voice praise his conduct."

LONDON, Dec. 11.—Despatches from Bregat give the following additional particulars of the fall of Plevna: "Osman Pasha ordered a sortie, and at half past seven o'clock in the morning he sent his army to attack the Russian General Corps, holding the line of investment on the left bank of the river Vist, endeavoring to force a passage. The attack was made with desperate energy, and a portion of the Turkish troops did in fact penetrate the line of entrenchments and batteries, but all attempts to break through the positions of the grenadier were ineffectual. After five hours severe fighting the Turks were defeated. Osman Pasha was surrounded on all sides, and was compelled to surrender with his whole army, 40,000 men, together with 400 guns. The ground, which was the scene of the battle, was literally strewn with thousands of dead and dying. Osman Pasha himself was severely wounded before he was taken prisoner. He was taken to the Russian lines, and is now being treated by the Russian medical staff. He is described as despondent, and everywhere the scene of conversation. The sufferings of the Turks in the beleaguered town were actually awful. Cold, disease, and famine decimated the ranks, and reduced the soldiers to living skeletons. To aggravate the sufferings there were no doctors, and no medicine could be obtained."

Bucharest, Dec. 11.—The report recently here that Osman Pasha's attempt to break out was a failure, and that he was taken prisoner, has been confirmed by the Russian General Corps. The report was a purely imaginary one. The Turkish army was completely surrounded by the Russian forces. The Turkish army was completely surrounded by the Russian forces. EDITOR: GAZETTE.—The New York Bank Note Printing Company have opened for again at the Government Bureau of Engraving and Printing which now prints all greenbacks and stamps, by attaching the characters of this indelible engraving thereon. Notwithstanding the government can do all its printing cheaper and better than private companies, yet the latter have been allowed to operate for years, and they have been allowed to operate for years, and they have been allowed to operate for years.

The shop windows are full of Christmas goods. Window wishing is growing more extensive. People are committing suicide now, because they have nothing else to do, and Americans cannot be idle. Some say they are looking for work in a warmer climate.

The present Rapid Transit is walking up town. But the post holes are dug on Sixth Avenue, after twenty years of injudicious and public meetings, for the purpose of digging a hole. Washington, Nathan, son of the murdered Benjamin Nathan, of Twenty-third street, got his name in the paper last week. He tried to give a policeman and was arrested for disorderly conduct.

The House Journal, on social etiquette, says you must raise your hat in acknowledgment of thanks if you give a lady your seat in the horse cars. We are waiting to see the first martyr give up his seat and the House Journal lady speak out her vote of thanks.

There is a rumor that Mrs. Theodore Tilton has resolved to break life and publish an authentic story of her life. Theodore broke silence a few years ago, and has been looking for a soft spot to lay his head ever since. The Turkish laundries are becoming numerous in New York. The Oriental says, 'A man can wash his face with a duster.'

Robert Bonner has purchased some more fast horse flesh. Yesterday there arrived at his stables on Fifth street several fine bays, bred Kentucky colts. He has a farm near 'Ferryway.' In the lot is 'Koon Time,' a thirty-four-year-old, who has made the fastest time for his age, viz: 2:24. Bonner still drives Dexter and runs the New York Ledger.

Peter B. Sweeney, alleged to have received 10 per cent of the Tweed Ring plunder by his office as City Chamberlain, has disengaged \$400,000. This was effected by the purchase of the block between Thirty-third and Thirty-fourth streets from him by Jay Gould, who filled the mortgages and closed the purchase at \$450,000. This property sold in 1869 for \$150,000.

Six-button gloves are going out of style. Five-buttoners are coming in. The female dress reformers can do wonders when they try. The practice of courage and ligatures is now under serious contemplation by the annual convention. Haystacks, rigging, brails, down-hauls, etc., are being talked of as substitutes by the convention. Cardinal red politicians and red leaders are making their appearance on the avenue. Turkey red will be the color next year, as the Russians have got a corner on Turkey and will unload her stock in time for the season.

Wanted.—A lot of Turkeys for Christmas, at J. Wesley Wright's, Bristol, Pa.

Every customer dealing at Wood's Cheap Store, Bristol, will be presented with a large engraving, as a Christmas gift.

For a fine assortment of New York and Philadelphia Confectionery put up in neat boxes go to Jackson's.

Go to Jackson's for Grapes, Oranges, Lemons, Bananas, Paper-shelled Almonds, Cocoanuts, Apples, Raisins, Figs, and Mixtures, 20 & 30 cts. per box.

For cheap clothing go to Tylers. Next door to the Post Office.

For clothing made to order from samples, go to Tylers. Next door to the Post Office.

For cheap hats go to Tylers. Next door to the Post Office.

Dobbin's starch polish, which gives that brilliant gloss popular to the laundry work, is for sale in Bristol, at J. Wesley Wright's store. It costs but little to try it.

SCIENCE'S HANDRAKE PILLS

Will be found to possess those qualities necessary to the total eradication of all bilious attacks, prompt to start the secretions of the liver, and give healthy tone to the entire system. Indeed, it is no ordinary discovery in medical science to have invented a remedy for these stubborn complaints, which develop all the results produced by a heretofore free use of calomel, a mineral justly derided by mankind, and acknowledged to be destructive in the extreme to the human system. That the properties of certain vegetables comprise all the virtues of calomel without its injurious tendencies, is now an admitted fact, rendered indisputable by scientific researches; and those who use the Handrake Pills will be fully satisfied that the best medicines are those provided by nature in the common herbs and roots of the field.

These Pills open the bowels and correct all bilious derangements without salivation or any of the injurious effects of calomel or other poisons. The secretion of bile is promoted by these pills as will be seen by the altered color of the stools, and disappearing of the black complexion and clearing of the tongue.

Ample directions for use accompany each box of pills. Prepared only by J. H. Schenck & Son, at their principal office, corner Sixth and Arch Sts., Philadelphia, and for sale by all druggists and dealers.

Price 25 cents per box.

THE WORLD

COOPER & CONARD, DRY GOODS, Ladies' Suits, Cloaks, and Costumes, PHILADELPHIA.

Persons at a distance will be amply repaid by a visit to Philadelphia and our store; if they wish to buy but a small amount of goods. We are in constant communication not only with houses of this country, but with those of Europe, and having a buyer for each of the ten departments of our store, who purchase only of their special goods, they must excel. The purchases, too, being made for prompt cash, every extra discount is allowed, so that the price at which we retail goods is often even less than the goods are sold at wholesale. The important auctions are attended, prices noted with much care, and purchases made when sold below prevailing market prices.
